

## Extended Application Standard

Students will be able to apply and extend academic and career-related knowledge and skills in new and complex situations appropriate to the students' personal, academic, and/or career interests and post-high school goals.

### Guidelines for a Sufficient Collection of Evidence

**Does the work sufficiently represent the extended application standard?**

**The collection must include:**

**Relevance**

- **Evidence of personal relevance.** Students show clear connection between their work and their post-high school goals and plans as they have developed or evolved. They show evidence of new learning, ideas, results or conclusions.

**Rigor**

- **Description of academic\* and specialized knowledge and skills appropriate to context.** Students explicitly describe the academic and specialized knowledge and skills they used. They demonstrate an understanding of how these knowledge and skills are appropriate to their education plans and post-high school goals.
- **Application of learning to new contexts.** Students apply and extend academic and specialized knowledge and skills in complex or non-routine situations, where the student uses some individual responsibility and autonomy.

**Reflection**

- **Reflection on applied learning and connection to goals.** Students reflect on how they applied academic and specialized knowledge and skills in complex or non-routine situations. They also describe how their work relates to their post-high school goals.

**Is there sufficient documentation of the students' work?**

**The collection must include:**

- **Documentation of process.** Students explain the steps involved and types of activities, communications, or research used when putting together their collection of evidence.
- **Tangible documentation of products.** Students provide tangible evidence of their work through photos, video, written pieces, etc.
- **Record of reflection.** The collection of evidence must include some form of written and/or verbal record of reflection.

\* The term academic should be interpreted broadly to include any knowledge and skills that are appropriate to a student's area of focus.

## 1/05 - Student Guidelines: Extended Application Collection of Evidence

*Use this worksheet to track your progress and see if your work shows enough evidence of the Extended Application Standard.*
